STEPS TO HELP YOU SELECT YOUR LONG-TERM CARE PLAN

1) Look at the Long-term Care plans in the insert or on the web at www.flmedicaidmanagedcare.com to see the basic benefits offered by all plans and the extra benefits each plan offers.

2) Look at the extra benefits offered by each plan.

3) Call or visit with a Choice Counselor.

4) Decide which Long-term Care plan best serves the needs of you and your family member.

You should consider the following when choosing a Long-term Care plan:

- What services do I think I need? Assisted Living? Personal Care? Adult Day Care? (Note: These are also known as direct service providers and must be in the plans network.)
- Which plan has the direct service providers I currently use or think I will need?
- Are the direct service providers I need a part of the plan?

Plan Choice and Change Period/Rights

- You must select a plan by the date listed in the letter or one will be chosen for you.
- After you start services with a plan, you have 120 days to change your mind and select another plan. The 120 day change period begins with the first date of plan enrollment.
- Once a year you will have a chance to change plans during Open Enrollment. You will receive a reminder letter before this time.
- You will only be able to change plans if there is a state approved good cause reason.
Starting Services before Medicaid Approval

• Medicaid Pending is an option for receiving home and community based services without having to wait until the Department of Children and Families approves an individual for Medicaid.
• If the application is not approved, you may be financially responsible for any services received.
• If you stop the home and community based services you are receiving before being approved for Medicaid, you will have to wait until you receive Medicaid approval before receiving services again.
